How did an illustrator, whose favourite pastime was fishing, find within himself the passion and confidence to portray Ontario's lakes, rivers, trees and skies with glorious colour and energy as no one had before? This is a truly remarkable film that explores the life and mystery of Thomson's death, the brilliant legacy of his paintings and the glorious landscapes that inspired his work. This will be our first Bluray hi-def presentation. 95min 2011 Pg I'm thrilled to have producer Nancy Lang with us to present this film <http://www.whitepinepictures.com/>

An Alternative, Finnish Approach to Healing Psychosis

OPEN DIALOGUE

In the far north of Finland, a stone's throw from the Arctic Circle, a group of innovative family therapists converted the area's traditional mental health system, which once boasted some of Europe's poorest outcomes for schizophrenia, into one that now gets the best statistical results in the world for first-break psychosis.

They meet clients in crisis immediately and often daily until the crises are resolved. They avoid hospitalization and its consequential stigma, preferring to meet in the homes of those seeking their services. And, perhaps most controversially, they avoid the use of anti-psychotic medication wherever possible. They include in the treatment process the families and social networks of those seeking their help, and their clinicians work in teams, not as isolated, sole practitioners. 74min 2011 Pg

We'll have an "open dialogue" after the screening including several guests
