

Movie Monday Attendance

Here we present data showing the number of events and annual attendance throughout the history of Movie Monday. Please note that some data are missing (notably 2005/06). The theatre had a capacity of 100 and we would have seating also in the lobby for those who preferred the more casual setting but also for overflow at some events. It was hard when events “sold-out” and we had to turn away people at the door. Overall, we estimate that Movie Monday had over 1,550 regular events that had an audience totally approximately 100,000. This doesn’t count the events done on other days under the MM banner.
